TECHNICAL SKILLS

Frontend

React.js, JavaScript (ES6+),
HTML5, CSS3, TypeScript, Redux,
Responsive Web Design, Next.js

Backend & Data

Node.js, Express.js, Java, Laravel,
Django, MySQL, MongoDB, REST
APIs, Authentication, Role-Based
Access Control

Tools & Cloud

Git, GitHub, Docker, Jenkins,
Azure, Postman, CI/CD concepts

LANGUAGES

English (Fluent)
German (Intermediate)
Hindi (Fluent)
Kannada (Native)

PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience building responsive web applications using React.js, JavaScript, Java, and the MERN stack. Experienced in leading frontend delivery, integrating REST APIs, and resolving production issues. Combines hands-on development with feature planning, code reviews, and Agile teamwork to deliver maintainable software. Pursuing an M.Sc. in Applied Computer Science at SRH University, Munich.

PROFESSIONAL EXPERIENCE

Software Developer / React Developer

AngoDigital Technology Pvt Ltd | India

Sep 2024 - Mar 2026

- Developed reusable React.js components and responsive user interfaces for production web applications across supported screen sizes.
- Integrated REST APIs, debugged and resolved production issues, and supported stable, performant application behavior.
- Led frontend delivery as a team lead, coordinating feature planning, code reviews, sprint priorities, and release readiness.

Java Full Stack Developer

Global Quest Technology | India

Feb 2024 - Aug 2024

- Developed and maintained full-stack applications using Java, JavaScript, MySQL, and the MERN stack.
- Implemented frontend and backend changes, investigated defects, and supported application performance improvements.
- Created test plans and test cases; executed manual and end-to-end testing to support reliable software releases.

Full Stack Developer Intern

Imarticus Learning Pvt Ltd | Bengaluru, India | Hybrid

Oct 2023 - Apr 2024

- Completed intensive MERN training and hands-on project work using React.js, Node.js, Express.js, MongoDB, and API integration.
- Built an interactive Adventure Website and a Restaurant Management System, focusing on responsive, scalable, user-friendly applications.

TECHNICAL SKILLS

IoT & Computer Vision

Python, Raspberry Pi, OpenCV, Haar Cascade, LBPH, GPIO, Wi-Fi, Sensor Integration, Embedded Systems

Quality & Delivery

Debugging, Manual Testing, End-to-End Testing, Test Planning, Test Case Design, Code Reviews, Agile Development, Scrum, Waterfall

CERTIFICATIONS

Cyber Security Ethical Hacking

EthicalByte

Advanced Data Analytics

Edunet Foundation / IBM

Full Stack Developer Pro

Imarticus Learning

React - The Complete Guide (including Next.js and Redux)

Udemy

SELECTED PROJECTS

Smart Food Waste Reduction System

2026

Laravel | MySQL | JavaScript | Authentication | Admin Dashboard

- Built a full-stack web application to manage food inventory and support food-waste reduction workflows.
- Implemented user authentication, admin dashboards, food-management modules, and real-time tracking features.

Drone Delivery Platform

2026

Django | MySQL | Stripe | GPS | QR Code Verification | Role-Based Access Control

- Built a Django-based delivery platform with GPS tracking, QR code verification, and Stripe payment integration.
- Implemented role-based dashboards for administrators, couriers, and customers and performed end-to-end testing.

IoT-Based Intelligent Surveillance Robot

2024

Academic Team Project | Raspberry Pi 3B+ | Python | OpenCV | Haar Cascade | LBPH | Wi-Fi | Sensor Integration

- Co-developed an IoT-enabled mobile surveillance robot for remote real-time monitoring and control over Wi-Fi.
- Implemented a Python and OpenCV face-detection and recognition pipeline using Haar Cascade and LBPH to classify known and unknown faces from live camera input.
- Integrated Raspberry Pi, camera input, ultrasonic obstacle avoidance, metal and smoke sensors, L293D-driven DC motors, and email alerting for security events.
- Validated power-on, face-recognition, movement-control, hardware-integration, and end-to-end system workflows through structured test cases.

EDUCATION

M.Sc. Applied Computer Science

Apr 2026 - Present | SRH University, Munich, Germany

Relevant study: Software Architecture, Advanced Databases, IT Security, UX Engineering, Mobile Computing, International Project Management

Bachelor of Engineering, Computer Science

Jul 2021 - Jun 2024 | Sri Krishna Institute of Technology, Bengaluru, India

Relevant study: Data Structures and Algorithms, OOP, Operating Systems, DBMS, Software Engineering, Web Technologies
